AGL Education Program

After-School English Clubs

Spring Semester 2015

After-School English Clubs

AGL Education Project has run a pilot project aimed at improving the quality of English education and raising the overall English language abilities of locals in the municipalities of Shuakhevi and Khulo, both of which are affected by the construction of the Adjaristsqali Hydropower Project.

As part of this project AGL organized and sponsored after-school English clubs every other week for gifted and talented high school students in the municipalities of Shuakhevi and Khulo.

After-School English Clubs

English clubs were held every other week during the spring semester and included a variety of activities, including:

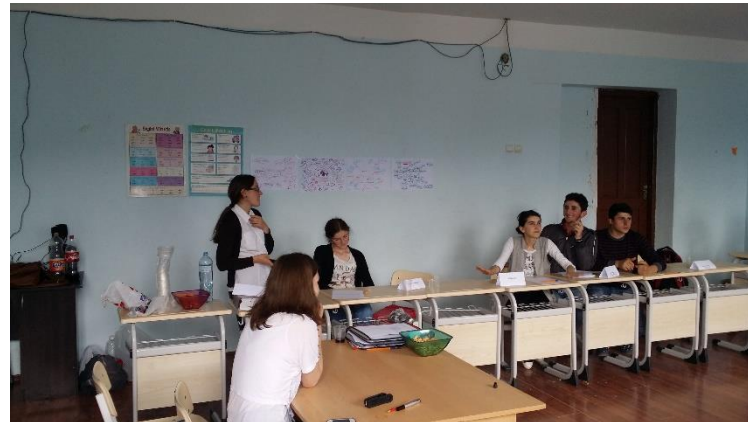

- **Mock job interviews**
 - Students created CVs and interviewed in English in response to a mock job advertisement.
- **Debates**
 - Students engaged in team-based competitive debates on a variety of controversial issues.
- **Youth Parliament**
 - Students debated local problems and drafted resolutions to address that problem. After an election, the winning resolution was presented to representatives from local government.

After-School English Clubs - Shuakhevi

After-School English Clubs - Khulo
